New Mission Memorial Hospital Ultrasound

We hosted a public grand opening of the new ultrasound room at the Mission Memorial Hospital on October 1st.

The new equipment was donated by the Mission Health Care Auxiliary. The new ultrasound machine will help hospital staff provide more ultrasounds and increase patient centered care for the community of Mission and surrounding communities.

A variety of ultrasounds are performed at the hospital, among them are abdominal, renal, obstetrical, carotid and extremity ultrasound procedures.

The additional ultrasound will increase access to services at the hospital site and the quality of patient care in the region.

"We are so grateful for the support of the Mission Health Care Auxiliary and look forward to working with the community to help enhance care in Mission" said Liz Harris, the foundation's Executive Director.

The foundation's primary purpose is to raise funds and awareness to further the improvement of health care in the facilities and programs operated, funded or endorsed by the Fraser Health Authority within the Fraser Valley Regional Hospital District through providing the best medical equipment, programs and facilities, to better serve your community of Mission. Do donate visit: www.FVHCF.ca

The Abbotsford-Sumas Rotary Club is back at it again, making the gardens at Cottage Worthington look beautiful for the residents. If you can help with any of the following on the poster below, please contact Liz Harris at 604 897 7994 or email info@fvhcf.ca

We are also collecting donations and items of toiletries (new Travel Size items) and gift cards (Subway, Tim Hortons, Wendy's, Walmart, SuperStore, and more in the denominations of \$25.00 or less) for individuals in Residential Care and Young Adults in the Mental Health Programs in Fraser Health East.
